For brief Summary of my Document in another's words alternate message.

Before reading this Report I highly encourage you to watch/listen to this Nick Freitas POD cast recently released HERE.

WARNO-HERE OR HERE OR HERE

In general, in America we tend to judge people not only by what they say, but by their belief systems and most importantly by their actions current and past. This is how we determine an individual's compatibility with one another. We logically align ourselves with like minded people that have similar belief systems, values, ideas, principles etc. Many when taking these factors into consideration will prioritize and evaluate gender, race or religion as a key factor to viewing or even accepting or acknowledging people.

Of course, America in general (having a colorful history-No Pun), especially in government and private institutions and based on our Declaration of Independence, which reads, *"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."* [1]- will explicitly ignore these specific individual characteristics, as each one alone

does not adequately portray (especially singularly) “the whole person's character” or history of merit. Race, gender should be ignored categorically because people (human beings) have zero control over such genetic characteristics.

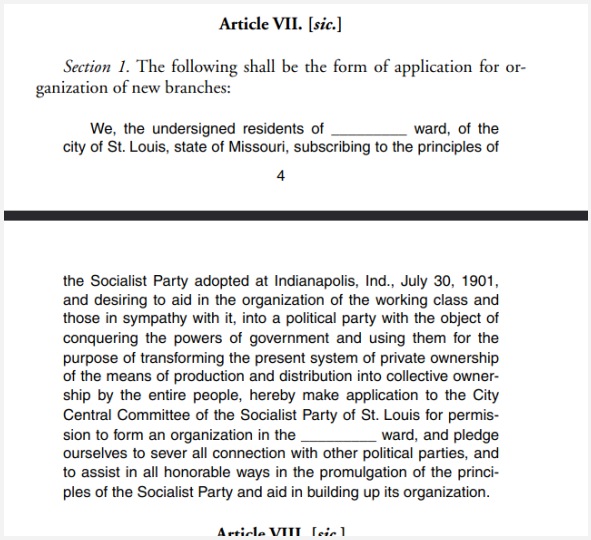
Obviously our founding fathers had most of this all figured out at the time, with exception of slavery and women's rights, moving forward that long stretch including the civil rights movement these issues have long been rectified have they not? What am I talking about here?

I just want to point out that the Comm/Marxist movement in America (***DSA***-**RevCom**-CPUSA-**YCL**) coupled with the Islamist operatives introducing “Islamophobia” into our country, another contrived construct fully created by Runnymede a British organization and later perpetuated and designed as a curated weapon by Organization of Islamic Cooperation (OIC) who has several voting bodies who lobby governments to push “Islamophobia” as an agenda, perpetuate propaganda surrounding the topic, track its effectiveness, write useless reports, and seems to be working against freedom of speech etc.

OIC is a global or transnational Islamist powerhouse of fifty-seven (57) Islamic countries and is second largest behind the United Nations, representing 1.5b Muslims. In the Islamic world this group and others like Muslim World League (MWL) drive the Islamic agenda and narratives worldwide. Islamophobia, in my opinion, was intentionally set out to accommodate the “America is Racist” agenda, I.E complement the normal globalist agenda in order to cause discourse and rehash “our” American history with a Marxist lens. They should not be permitted to operate here in the U.S or should be treated as a hostile foreign government.

It's all a crap construct, a full blown operation that has dominated headlines for years allowing for this topic to always be a talking point, to disrupt society at all levels, demoralize a whole people about a negative historical “undisputable fact” regarding non-existent systemic racism/slavery in America something most living Americans never even participated in or experienced.

It also provides for any Muslim to immediately “shut-down” any perceived criticisms of Islam itself for fear of “cancellation” or labeling as an "Islamophobe" For the record, America corrected itself long ago. Sure there may be random individuals or groups who espouse racially bigoted or misogynistic beliefs, but that's what they are, mere elements of society. They are not representative of our entire nation as a whole. Furthermore and despite anyone's feelings, they are entitled to think however they want. Which leads to ideologies.



Article VII. [*sic.*]

Section 1. The following shall be the form of application for organization of new branches:

the Socialist Party adopted at Indianapolis, Ind., July 30, 1901, and desiring to aid in the organization of the working class and those in sympathy with it, into a political party with the object of conquering the powers of government and using them for the purpose of transforming the present system of private ownership of the means of production and distribution into collective ownership by the entire people, hereby make application to the City Central Committee of the Socialist Party of St. Louis for permission to form an organization in the _____ ward, and pledge ourselves to sever all connection with other political parties, and to assist in all honorable ways in the promulgation of the principles of the Socialist Party and aid in building up its organization.

Article VIII. [*sic.*]

Moreover, an American's ideology and the politics that a person espouses are things we can indeed control because we have a choice, and in the case of Islam Muslims are directly influenced or are intentionally intertwined with one another, distinctly differing from the secular U.S government and our Constitution, complicating things for some. I'll quickly summarize.

Islam and politics are deeply intertwined because ***Islamic law and governance derive directly from their foundational texts,*** where the Quran establishes divine sovereignty, specific Surahs address societal legislation, and Hadiths provide practical statecraft models from the Prophet Muhammad's leadership in Medina. [1, 2, 3, 4]

The Quran and Divine Sovereignty

- **Supreme Law:** The Quran establishes God as the ultimate lawgiver (*Hukm*), making human laws secondary to divine command.
- **Justice and Authority:** Surahs like *Surah An-Nisa* (4:58) command believers to render trusts to whom they are due and judge with justice.
- **Social Order:** *Surah Al-Ma'idah* (5:44) warns that those who do not judge by what God revealed fall short of true faith. [1, 2, 3, 4, 5]

Hadith and Political Practice

- **The Constitution of Medina:** The Prophet Muhammad created a political pact uniting diverse tribes under a single community (*Ummah*).
- **Leadership and Duty:** Hadiths frame leadership as a sacred trust (*Amanah*) and a moral duty to protect the weak.
- **Obedience and Accountability:** Traditions emphasize obeying just leaders while advising rulers against tyranny and corruption. [1, 2, 3, 4, 5]

Other Sources: ***Reliance of the Traveller*** (titled ***Umdat al-Salik wa Uddat al-Nasik*** in Arabic) is a famous 14th-century manual of **Fiqh** (Islamic jurisprudence) written by the scholar Shihab al-Din Ahmad ibn al-Naqib al-Misri.

While *Sharia* represents the divine, immutable law found directly in the Quran and Hadith, **Fiqh** is the human intellectual effort to understand, extract, and apply those principles to specific worldly situations. [1, 2, 3]

Most Americans, including myself up until about the year 2003 and later after the Holy Land Foundation trial (HLF), have been completely and utterly mis-led about Islam and many (not all) of its adhererants. Most people continue to believe that Islam is a “religion” of peace. This false narrative was most popularly promoted heavily by the Bush administration (Gdub) following the devastating September, 11th, 2001 attacks perpetrated by the nineteen (19) Al Qaeda operatives whose nationalities primarily originate out of Saudi Arabia (15), and other jihadis from Lebanon, United Arab Emirates (UAE) and Egyptian backgrounds.

Nevertheless, radicalized by the likes of AQ leader Osama bin Laden and Imams and preachers like Sulayman al-Alwan.

Meanwhile since the 1990’s the Muslim Brotherhood (jihadist at heart who wear suits and ties) have been performing what we call “Jihad of the Pen” instead of “Jihad of the Sword” through various avenues of approach, primarily exploiting first American kindness, generosity, good hearted nature, but also the Constitution, U.S. laws and our free society.

Islamic adherents view America as very weak for a variety of reasons, but specifically our secularism is bothersome to them basically because they feel Islam should dictate all. The fact that we enjoy freedoms to drink alcohol lacking self discipline (highly promoted in Islamic practice) or other perceived vices, such as we are largely accepting of controversial things such as having our dogs as pets, many even treating them like humans etc. Whereas their view is that canines are the heathenous devil, should never be inside the house or petted. Much more. All this, to them, makes us ripe for the conquering in their view.

As witnessed in the U.K there are several Muslim Mayors although the country many are ceremonial according to google (BS), they still have plenty of political clout and influence over local policy. Currently we have a mixture of islamist/Communist Mayor of New York City who somehow got elected by only % 20 percent of the people.

He openly plans to destroy New York (through Commie?Social programs/policies). This is our financial capital and melting pot of America. He's already pissed off the Italians, the Jewish folks alienated others who are the bedrock of those neighborhoods and representatives of true

American culture by assimilation and legal immigration (Ellis). There are dozens of Islamist running for office throughout our lands in an effort to seize any modicum of control of territory as possible. They even have a political PAC now! Need I say more?

Prominent Muslim Brotherhood researcher and investigator Amy Mek who has testified in congress multiple times and conducts in depth investigations at (RAIR Foundation) of MB operations daily, wrote this today on the X platform :

"If CAIR's candidate Abdulrahman Mohamed El-Sayed becomes the next U.S. Senator from Michigan, we will literally lose the state.

This is not just another progressive.

This is a dangerous, terror-tied threat who has taken money from and spoken for CAIR – the foreign terrorist organization with documented Muslim Brotherhood and Hamas roots.

His jihadi father-in-law, Jukaku Tayeb, is a former president of CAIR-Michigan and sits on the founders Committee of ISNA – both organizations named by federal prosecutors as unindicted co-conspirators in the Holy Land foundation Hamas-financing trial.

Tayeb has also poured hundreds of thousands of dollars into El-Sayed's super PAC. They are desperate to seize control of his nation!

If this operative wins, Michigan will not stop at Dearborn and Hamtramck.

The entire state will start to resemble what CONQUERED Hamtramck (halal-tramck) already is:"

Since that horrific 9/11 attack, costing the innocent lives of over 3,000 plus U.S citizen's lives (including 1st responders and subsequent related health conditions), information has developed over the course of time, that our Central Intelligence Agency (CIA) and Federal Bureau of Investigation (FBI) had a severe and consequential lapse in both intelligence sharing and judgement, as some of the terrorists had been under surveillance beforehand and both agencies basically did not talk to each other back then, even today after two decades of addressing the communication issues, we still fail to get it right.

We just ended twenty years of war in Afghanistan and Iraq theaters, which was labeled as payback for 9/11/01. God Bless the U.S Warfighter and all support mechanisms. Bin Laden himself has been neutralized as of May 2, 2011 (local Pakistan time), during a U.S. military raid on his compound in Abbottabad, Pakistan. The operation took place just before 1:00 a.m. local time, which was the evening of May 1, 2011, in the United States but his legacy lives on though at least three of his many sons.

The three amigos who are running Al Qaeda, are Emir Hamza bin Laden, 1st Deputy Saad bin Laden and 2nd Deputy Abdulla bin Laden who currently run and control Al Qaeda central from Afghanistan, with seasoned war planner Saif Al Adel at their side. Have deceitful backing of the Taliban and the Haaqani Network as they thrive since our rapid departure. Previously their efforts were suppressed by U.S led and coalition operations writ large.

This is an unacknowledged reckless gift from Joe Biden (his handlers), and his disastrous pull-out that left thirteen (13) U.S service members dead, 170 innocent Afghanis maimed/injured at the AbbeyGate (HKIA) attack, left the USA also with a shoddy investigation into the event but later further re-assessed with new conclusions by Adams and Dave 'Boon' Benton. Biden also left Afghanistan in the hands of the ruthless Sharia Law adherent Taliban imposing sick laws on the civilian population, many of which were hunted and killed.

The United States has been funding several tens of millions weekly to the Taliban not only for fake counterterrorism efforts as the Taliban deceptively agreed to (counter ISKP) but also reparations to family members of killed Taliban, something never even thought of for our own U.S Goldstar family members with a loss. Congressman Tim Burchett and Eli Crane seem to be the only two who cared, there may have been others not vocal. They probably wouldn't have known if not for the Shawn Ryan Podcast, Sarah Adams (former CIA), retired Army Special Forces, LTC. Scott Mann, Ahmad Massoud and LEGEND. There have been over forty plus active terrorist training camps in operation since after our pull out in 2021;

Upwards of Seventy (70) thousand new terrorists have been specially trained in terrorist combat skills and suicide bomber operations, subsequently forward deployed to various continents for

major operations that includes the United States and Europe. The Hamas attackers of October 7th actually trained in Afghanistan prior to execution of their assigned tasks, thus showing the interoperational relationship between different terror groups, Shia and Sunni alike, to include Iran who provided special shelter and cover for Hamza bin Laden and Saif Adel while being hunted. Ironically, longtime Taliban opposition recently announced the re-stand-up of the Afghanistan United Front (AUF) to counter the Taliban along with help from NRF, AAF, HCF. I don't mind sending them my money to benefit the actual people and to smash the Taliban. As the Taliban, Haqqani Network and Al Qaeda are technically one unified organization now due to intertribal marriages of Hamza.

Our so-called "over the horizon intelligence" didn't collect this intelligence information. A former CIA Officer and various U.S Veterans, with legacy war networks did, our government (WH/FBI/DHS/DoD) has historically refused to acknowledge any of this, mainly I'm told, because they did not collect the intelligence impossible because all CIA outposts were abandoned or dismantled when sleepy Joe pulled us out in 2021.

AQ has a large conglomerate of jihadi terror groups (10-20) all trained up, already within the U.S according to Adams, but also another GWOT Patriot, retired Army Special Forces operator and CWO and Director of the National Counterterrorism Center (NCTC) Joe Kent, also a Gold Star family member, who previously testified that there are at least **eighteen thousand** inside the U.S considered "Known or Suspected Terrorist" (KST). There's actually thousands more jihadist here other than the 18k.

CHAIRMAN CRAWFORD DELIVERS OPENING STATEMENT AT BRIEFING ON DOMESTIC COUNTERTERRORISM

WASHINGTON, D.C.— Today, House Permanent Select Committee on Intelligence Chairman Rick Crawford (AR-01) delivered the following unclassified opening statement at a briefing on domestic counterterrorism and the Afghan SIV Program.

The United States is facing a ticking time bomb of terror threats to the Homeland. I was horrified to hear NCTC Director Joe Kent's testimony to the Homeland Security Committee last week that they had identified 18,000 known and suspected terrorists that were allowed to enter the U.S. during the Biden Administration.

In January 2021, the U.S. had the most secure border in its history. Unfortunately for Americans, on former President Joe Biden's very first day in office, he began dismantling the processes and protections built under the previous Administrations that until that time kept America safe.

On day one, the Biden Administration: halted construction of the border wall, rolled back immigration enforcement priorities domestically; ended travel restrictions from countries of concern; halted deportations for 100 days; and suspended the Migrant Protection Protocols program, enabling asylum seekers—many with little to no documentation proving their true identity—to enter the U.S. to await court hearings. Unfortunately, we've lost track of many of those asylees.

HINDSIGHT

Barack Hussein Obama's aka (Barry Soetero) speech in 2009 given in CAIRO, Egypt (presented to the MB) was a greenlight to dominate America while seeming to create some type of false "unity" as he advocated a new relationship between the USA and Islam among other things like, peace in Gaza and closure of Guantanamo Bay Cuba, both remain active today (04 Aug 2026). If we are so lucky Mr. Soetoro may become a resident of GITMO.

Obama at the direction of his handlers (CIA/Brits??) pioneered, championed and set in motion the whole "**Interfaith**" relations (Dawah), a ripe avenue of pursuit aimed specifically to conduct further subversive activities against America's core (Christian Faith) and to be pursued by U.S based operatives, Islamist Imams, Sheikhs or Nation of Islam Ministers and intended to infiltrate all aspects of, not only the whole of Christian faith (any denomination), but by befriending and *corrupting* American Pastors, Priest, Deacons, youth groups, Presidents, Apostles, Rabbis, Cantors (Chazzan), Rebbe (in Hasidic communities) and I'm not certain, but likely Guru, Buddhist Lama, Rinpoche (in Tibetan traditions), Sensei or Roshi (in Zen traditions), Monks and of course our pathetic Marxist American Pope currently pretending to run Cita di Vaticani currently beholden to the Globalist cabal . It has been said, since the birth certificate controversy, that Obama is an intelligence asset trained since youth. I guess the correct question is what agency? Similarly, Brennan, a clear penetration asset could not have done all this damage for mere self fulfilling gratification. They were on a mission with assigned tasks.

Regarding the 'interfaith' movement, surely one can learn to respect another's religion and co-exist peacefully; it's been accomplished forever, but normally only where Islam is absent. I mean seriously though this is the definition of a spiritual, cognitive, multi-warfare, multi-front, multi-adversarial Unrestricted Warfare campaign. To believe we could actually have true unity and respect amongst these faiths is laughable.

This Obama mission was likely dual hatted Islamist and Globalist in nature, no doubt British involvement. Then of course the Marxist took their shot while the faith doors were open, so as to usher in Socialist, Cultural Marxist WOKE, racial, sexual, transgender, social justice ideology very much working in concert with Islam today to infiltrate and corrupt our traditions and beliefs at institutional levels. All the way from your local church up to the Vatican.

PLEASE NOTE AND HEED THIS **"WARNING:"**

For parents or relatives reading this with affected children who support the Islamic/Free Palestine Agenda or who may have been transgendered or may just be of that persuasion. Adults and especially these kids are in positions of severe danger.

At some point, Islam in America as a whole will CUT all their dead weight, ties with the gay/lesbian and gender justice movement collectively, this includes advocates and friends of the cause (obnoxious, overweight, ugly, loud mouth, liberal white women) (known as fag hags).

'Gay's OR Queers for Palestine' *and similar groups* will be PRIME targets of 'death' when they feel that the "USEFUL IDIOTS" that they are, are no longer of use, or a benefit to their cause. Just know in your hearts, when people start flying from tall roof-top buildings without wings or a chute, or being nudged or pushed in front of moving trains, it won't be accidental.

As a Christian or simply an American, I may not agree with your lifestyle choices, **but I still love and welcome you** and **Jesus does too,** despite your shortcomings, as none of us are perfect, especially your current Muslim political allies using deception techniques to the fullest. They grind their teeth, deep in their souls wishing you death or harm but, for the sake of protesting and need for mass turnout to rallys-They currently smile to your face acting as if they are 'accepting' or 'forgiving' people. I mean the Prophet Muhamad married Aisha when she was six (6) years old (horrid) and they call him a perfect role model, do you see the hypocrisy in their evil beliefs? Abandon them quietly-Run now-GTFO now and never look back. This message is not propaganda.

Perhaps there was even complicit treasonous cooperation as junior leaders at the time, such as two time loser John O. Brennan facilitated passport/visa authorization for many of the 9/11/01 hijackers, expediting 'clean' entry into the USA. Much is still to be said about this because Brennan, a lifelong self declared Communist (acknowledged not disavowed in Diana West's Red Thread) who had conveniently converted to Islam, while on an agency tour, stationed in the Kingdom of Saudi Arabia. Please see MEL K'S interview with John Donavan former FBI Analyst and his new book along with Ian Trottier discussing Brennan's life of High Stakes Treason.

Another on John O. Brennan

SIDE NOTE: The book details the below-

The core evidence compiled behind *High Stakes Treason* is mapped out across the following investigative focus areas:

- **The Conflict of Interest:** The text presents SEC documentation alleging that Brennan hid his illegal ownership of stock in a key government contracting company. [1]
- **The Financial Gains:** It maps out data showing his stock value surged from **$50,000 to over $4,850,000** as Congressional counterterrorism funding increased following domestic attacks. [1]
- **The NCTC Protocol Cutout:** It details how Brennan used specific National Counterterrorism Center (NCTC) protocols to position a single, unwitting analyst as a personal cutout to filter and deliberately hide specific threat intelligence from both the FBI and CIA. [1]

- **Failed Interceptions:** The investigation explicitly cites how these intelligence-blocking protocols directly paved the way for preventable security failures on U.S. soil, highlighting the **Boston Marathon Bombing**. [1]
- **White House Log Discrepancies:** The documentation provides evidence of multiple falsified entries inside the **White House**

He was later promoted to Saudi Chief of Station (CoS), eventually Special CT Advisor directly reporting to former President Obama and eventually rose to be our lead Spy Master for the agency as Director (DCI). Prior to all this, I believe in the 1990's he was an analyst providing Presidential level intelligence briefs in the Clinton administration, no doubt strategically maneuvering.

Everyone knows some of the 09/11/01 terrorists would also attend U.S flight school, but ironically not complete instruction on how to properly and successfully land the aircraft during flight simulations. All this a sure key indicator of a future hijacker who had no intentions of safely landing an aircraft. I should note one particular FBI agent out of an Arizona field office did put out a BOLO memo on this 'non-aircraft landing inadvertent tradecraft behavior' to all FBI field offices, but nobody seemed to get it or do the math.

We have been led to believe that Islam absolutely means the United States no harm and this may be true, but only in the sense that, it means us (Westerners/Non-Believers/Kufir/Infidels) no harm, so long as we all simply comply or "submit" to/with the doctrine of Islam, governed by their god Allah , modeled by their Prophet Muhamad- dictated by the Quran/Sunna/ and Hadith and Shariah Law. Their book says the only exceptions to this rule are those that pay the tax called the Jizya.

If we don't comply then there is, as usual, never ending unconventional WAR to be waged on us by way of aircraft hijackings, suicide bombings, open air assults with firearms, grenades, RPG's, mass/individual stabbings, or crowds being mowed down using oversized vehicles, other methods only limited by ones imagination. If that fails they may offer us to pay our way. So called "moderates" will point fingers at those already labeled "Extremist" or "radical Islam". The very ones shouting this are Ikhwan Muslimin or Muslim Brotherhood network members in some role all wearing suits and ties shouting "Islamiphobia" to anyone even examining or legitimately criticizing Islam. I don't mean to talk shit, but pretty similar to the whole Your Anti-Semetic" if you criticize Israeli government for disagreeable activities.

This has been demonstrated time and time and time again while we soft hearted, generous and forgiving Americans continue to say "they are all peaceful people" there's only a few bad ones. I know that this is not always our experience in the USA as of recent, having at least 4 lone wolf attacks in the last 8 months.

In general, thanks to our warfighters' sacrifices taking the fight overseas for twenty (20) plus years, stateside law enforcement (local/fed), vast security and intelligence apparatuses

(fed/private) we have been largely shielded and protected from the likes of widespread international terrorism on a grand scale, thus far.

Those times are over now. Alejandro Mayorakas and other Biden admin officials allowed and permitted mass illegal entry of foreign criminals, many of which were only murderers (13k +), some of which who have taken individual lives in America like Laken Riley, others highly trained and skilled terrorists of many origins like TdA, but primarily Islamic.This is all in the background of the existing infiltrators who have been here since the 1990s following a plan to seize the whole nation and impose their ideologies primarily Communism and Islam.

We all have a Muslim friend or two or 5 that are seemingly normal and non-violent, I would even assert peaceful and against radical ideologies. I don't say 1, 2 or five because we are a racist people. I say that because generally they are and normally do not like associating with Infidels if they can avoid it, at least in my experience. Islam by nature is a supremacist political ideology. Immigrant Muslims would prefer to enjoy the company of their fellow Islamic worshipers (umma) because Islam is all encompassing, in all that they do.

Frankly, I do not see them assimilating well into American culture. Flipping the script, I'd rather hang out with an English speaking American (any race) as opposed to someone alien to me. Then there are plenty of American Muslims who have no problem in society at all and get shit on due to the behaviors of the non-conforming immigrants, clearly unfair.

At any rate, a Muslims' dedication is noble, meaning their dedication to prayer five times per day is impressive, remaining devout in a foreign land (USA) where members of your faith or culture committed the largest terror attack in history is pretty brave. Even carrying around a little rug or doormat to pray wherever they may be. Including obstructing public walkways or roads etc.

My aim is not to cause distrust amongst citizens, but at this juncture I do intend to be an alarmist, highly encouraging mere high awareness surrounding the gravity of this situation and for you to make the individual decision on who you trust, allow near your family, especially when loyalty matters in this time of turmoil for the country.

The problem is, they all (Islam adherents) read the same book (Koran) taught to them at young ages through indoctrination. In fact, if I recall correctly, it warrants death to those who communicate or teach ANY deviation, omission or untruthful Quranic message (word of Allah). Just the same the Quran imposes death to those who leave Islam in many instances.

Those American friends of ours who practice Islam are simply choosing (rightfully) not to follow all the dictates and mandates of the Koran and we call them Muslims, but the Koran also permits followers to be dishonest and lie (Taqiya), employ deception techniques to non-believers, so long as they are furthering the overall cause or spread of Islam (prostylization) or performing Dawah.

Many Muslims, when called upon, will activate at a later time, but thankfully not all. We need look no further than the United Kingdom and other European countries that also experienced invasion/infiltration taking Morocco and Spain as primary recent examples. Tell me how 250,000

native British Anglo women and mostly young adolescent girls can be systematically raped, kidnapped, drugged, enslaved and methodically abused by a single group of individuals (migrant Pakistani Rape Gangs) with nobody in government (Parliment, Law Enforcement, Courts) acknowleding such a hideous crisis, inflicted upon its own people and caused by one immigrant group and not until Tommy Robinson and an independent investigation concluded as such and exposed with a final report ? Apparently everyone in the government at all levels and I'm sure their daughters were also addicted and assaulted. **They did nothing for fear of retaliation and "being branded racist"** .

Things are meant to be confusing and intimidating mostly because of the trickery at play, Islam Vs. Islamism and Islamist, one being slightly worse than the other kind or like Socialism is great and Communism is the horrid, with Marxism being somewhere in the middle but at the root of all, all of which lead to stripping of individual civil liberties, removal of private property ownership, collectivism not individualism, mass death, destruction of societies, famine everytime it was implemented etc.

In my opinion, Islam is a death occult when practiced correctly by the book, especially Shia Islam mainly practiced in Iran portions of Iraq and Lebanon, who observe Mehdi. Islam clearly despises womans rights, freedom of speech, freedom of religion, dogs, bacon, hotdogs or any swine, gays and more. It's also a complete way of life with its own Law called Shariah , encompassed in all that they do and, takes high precedence over any practice or observation of U.S Law, Code, Oaths or Constitution, which is totally antithetical to our American Judeo-Christian based way of life, governmental apparatus and U.S Constitution. Unfortunately this also makes Muslims utterly but naturally, totally un-loyal and unfit for service in any local or federal public office, personnel security clearances (PCL) or designated position of trust as their loyalties are always to Islam and Shariah first.

Most importantly, Islam by design is a political ideology that aims to dominate a land and its people wherever they may find themselves. All these are little negotiations on what is an acceptable ideology in America and Europe, all of them totally and empirically unacceptable and unworthy of Western culture and way of life. We've made concessions to this repeatedly for fear that we may appear "racist" by denying them access or participation.

It has also been said, and literally shouted upon the roof-tops for half my life, literally two decades, by American Patriot experts like **John Guandolo**, **Stephen Caughlin**, **Frank Gaffney**, **Dr. Robert Spencer**, **Brigitte Gabriel**, **Bill Warner**, **Glenn Beck**, M.G Paul Valleley (SUA), Trevor Loudon, LTG. Miichael T. Flynn, **James Lyndsay,**, **David Horowitz**, **Steve Emerson**, **Paul & David Gaubatz**, **Ryan Mauro** and several, but not many others, and their respective organizations like **ACT For America**, **Center for Security Policy**, **Unconstrained Analytics**, **Understanding The Threat**, **The Investigative Project on Terrorism (IPT), CSPII**, **Blaze Media**, **Horowitz Center**+Jihad Watch who I and many others have diligently listened to and studied over the decades, they selflessly dedicated themselves to warning and waking up America of the past/present threat and actions of the Islamic Muslim Brotherhood infiltrations and operations within the U.S Homeland. Their only goal was to Keep America Secure.

Then we have the current Grand Jury indicted Southern Poverty Law Center (SPLC) an organization held in high esteem by our Federal Bureau of Investigation (FBI) who frequently parroted their (SPLC) statistics and false fabricated analysis for years; who intentionally targeted and branded 'Act For America' and many others including the late Charlie Kirk's TPUSA as a bigoted racist organization (highly likely resulting in his death) and other Christian American Patriots such as retired Army Special Forces Sergeant Major Mike Glover's "American Contingency" as both "Far-Right Winged Extremist Groups" consequently resulting in the FBI listed them as such in distributed warning memos and to the public media after intentionally leaked. This is supposed to be America. All of this totally and empirically unfounded, unrealistic false claims having severe impact physically, emotionally, politically, financially and personally. You know, just ruining everyone's day and lives and the American spirit. Glover was forced to rebrand after the slanderous claims, if you are interested in preparing your family check them out.

For me, I personally experienced this internally, basically a hostile, sometimes dangerous environment from the governmental 'inside' within the organization I was with. One subtly for several decades, but also a subsequent org I was with for three years, whose focus was supposed to be on producing A-political actionable intelligence but just as important the training pipeline future U.S.intelligence personel.They systematically never once questioned any of SPLC reports (treated as if Holy scripture) and the obvious political attacks on conservative organizations in the their reports was glaring and obvious to me and I'm sure others. The issue wasn't executive level ideology, it was senior mid-level management directing all operations with severe Donald Trump Derangement Syndrome (TDS) coupled with socialist university level "activism" that drove this very toxic environment that required walking on eggshells for fear of having the wrong opinion, thought process or ideas.

A half dozen times, I personally raised concerns and questioned my mid and senior level leadership (against my prior modus operandi) about the obvious political biases reflected in team reports, field reports, oral discussions etc, lack of facts, willful ignorance of facts, generalizations, literal assumptions, many politically driven opinions and overall false reporting within our's and SPLC operations. Subsequently negatively affecting our internal investigative and intelligence based operational planning,reports and findings (evil SEED). I objectively raised concern and did so frequently, using as much tact and finesse as possible, but always being penalized each time. Eventually I had the big HAMMER dropped on my ass for having 'conservative like' sympathies, at one point I was put in isolation working solo, efforts to keep my cancerous thoughts away from junior personnel.

My proven work ethic and merit was undeniable, making assistant Team Leader in 8 months, earning the directors achievement award fast tracking. Eventually I made the very hard decision and resigned my position, but under the cover of a different excuse for fear I'd receive a poor final review or get a negative job reference in the future. I can only imagine what has been occurring across the country where traditionally politics are never commingled with the national security mission especially at lower operational levels. I might add, I did have some neutral allies at that org and was and still am honored to have worked for such stellar Americans. The others know who they are. Commies/Marxist, social/gender/racial justice activist cowards.

This organization even mandated annual 'Personal/Political Biases Training among others. Pretty much all the work of SPLC was a laughable joke to the point where they allegedly were at some point funding the KKK, National Alliance and the Aryan Nation (of all the people) with millions, to portray this large non-existent movement that was so racist and widespread across the land "we must all live in fear". I won't deny they exist, but not in any formidable adversarial way.

Likewise, portions of the Catholic church, the largest Christian institution, was illegally investigated and listed by the bureau and elementary school parents placed on a terror threat list for likely the same reason. I think they set out to destroy the righteous right, before truths came out about the lunatic cultural marxist left. Glad it backfired.

In my opinion the ADL should also be under investigation at least to look under the hood where nation states may be hiding. Hopefully this era is gone and I can fly my Betsy Ross flag or wear my Gadsden hat or underwear without fear of being on the wrong side of the law or America.

These types of people perpetrating this need imprisonment.

Investigative Note: If you are conducting research requiring facts absent of Marxist left leaning propaganda? Check out Discover the Networks. HERE

I might just add that, the majority of the named individuals and organizations mentioned above, at some point have been the actual VICTIMS in their own nation of public persecution, extreme ridicule and Unrestricted Lawfare, Slander, even physically attacked by the Islamist Terrorist organization CAIR wich is led by U.S Hamas leader **Nihad Awad,** to my knowledge, and despite lack of evidence of such claims, have been literally publicly ***BRANDED*** in the media as "**Crazy Conspiracy Theorist**" "**Far Right Extremist**", **"Islamaphobes**", "**Racist**, "**Anti-Muslim**" and I am certain, much more.

This is something they all knew the risks of, but stood firm, gave media interviews, briefed the highest levels of U.S government, briefed local police/Sheriffs, created education programs, organizations, wrote and published numerous authoritative books, articles all to get us (America) to wake the fu(k up. So if you haven't already, the time was yesterday, but I'll settle for now.They should all receive the Medal of Freedom.

In the West, this occult ideology gets a free pass with society and especially the government because of 'freedom of religion' which is sacred to many of us, the others not listed as an actual religion, I suppose are dubbed an "Extremist Ideology" or an occult. Islamist are actually supremacists. They will not allow us to practice our own true religions, only Islam, if they control the country. Currently in America, as intended, so long as you aren't committing a crime and group numbers aren't threatening, you are welcomed to believe whatever you'd like to believe in the U.S so long as your resulting actions have no criminal effect on others.

Summary of Shariah

Sharia: Sharia is based on the principles found in the Koran and other Islamic religious/political texts such as Reliance of The Traveller. There are no common principles between American law and Sharia.

Under Sharia law:

There is no freedom of religion

There is no freedom of speech

There is no freedom of thought

There is no freedom of artistic expression

There is no freedom of the press

There is no equality of peoples—a non-Muslim, a Kafir, is never equal to a Muslim

There is no equal protection under Sharia for different classes of people. Justice is dualistic, with one set of laws for Muslim males and different laws for women and non-Muslims.

There are no equal rights for women

Women can be beaten

A non-Muslim cannot bear arms

There is no democracy, since democracy means that a non-Muslim is equal to a Muslim

Our Constitution is a man-made document of ignorance, jahiliyah, that must submit to Sharia

Non-Muslims are dhimmis, third-class citizens

All governments must be ruled by Sharia law

Unlike common law, Sharia is not interpretive, nor can it be changed

There is no Golden Rule

Clearly not the case as they have slowly but surely come out of the wood works lately (check X platform), many declaring their ultimate intentions of ruling the U.S.A by establishing an Islamic Caliphate in the Homeland. Last I checked, acts of subversion, sedition and attempted federal government overthrow of our nation is a crime. This stealth infiltration into our society has obviously become normalized as they intended, coming in the form of charity organizations, civil rights organizations, advocacy groups, restaurants, even political PACs and of course a boon of several thousands of Mosques/Masjids or Madrassas across the U.S and Europe, with focus on Islamization of good old Texas, where the battle of the Alamo once occurred; No better place to make a statement with the likes of EPIC City-AKA East Plano Islamic Center.

ISLAM
A religion of peace?
Koran 2:191 "Slay the unbelievers wherever you find them."
Koran 3:28 "Muslims must not take the infidels as friends."
Koran 3:85 "Any religion other than Islam is not acceptable."
Koran 5:33 "Maim and crucify the infidels if they criticize Islam."
Koran 8:12 "Terrorize and behead those who believe in scriptures other than the Koran."
Koran 8:60 "Muslims must muster all weapons to terrorize the infidels."
← 8:65 "The unbelievers are stupid; urge the Muslims to fight them."
Koran 9:5 "When opportunity arises kill the infidels wherever you find them."
Koran 9:30 "The Jews and Christians are perverts, fight them."
Koran 9:123 "Make war on the infidels living in your neighborhood."
Koran 22:19 "Punish the unbelievers with garments of fire, hooked iron rods, boiling water, melt their skin and bellies."
Koran 47:4 "Do not hanker for peace with the infidels; behead them when you catch them."
Any questions?

Heavy Islamization of California (Orange County, Inland Empire, San Diego), Michigan (Dearborn/Hamtramck), Minnesota (Somaliaville) and many other state projects of the Muslim Brotherhood.

Many of our history books intentionally mis-represent the Chrsitian Crusades as typical good ol' white Anglo people conquering innocent lands, stealing said lands, because that's just what white people do, right? I'm sure there are literally generations of Americans who believe this

fundamentally false narrative, no doubt, intentionally emplaced into our history books, further re-gurgitated by operatives, Marxist/Islamist school teachers, corrupt globalist elite media outlets like CNN, CBS, ABC, PBS, NPR, Politico (most all of them) and at all education levels K-12, college and university professors and their respective Middle East Study 'Centers' (many directly funded by (Saudis-UAE/Qataris) also HERE for the purpose of subversion and to further sympathies much like Gazans do with all their propaganda drama (toxic victimhood syndrome) that has spread even more here since the barbaric October 7th attack on Israel killing 1200 civilians (babies included).

This is so that our children are not taught the truth about Islam and to portray Americans as the only bad guy. It makes for a more easily brainwashed society when the time comes that they eventually demand U.S citizenry to submit to Islam (subjugate). It seems that time may be nearing (a few years), but not without a fight.

FURTHER BACKGROUND

Truth be told, the Islamic **Conquests** had occurred hundreds of years earlier than the Crusades which was (a literal response to the conquering Islamist.) The conquest, resulting in millions of barbaric deaths including beheadings, millions of Arab, African and Europeans subjugated into slavery were taken (kidnapped). According to Raymond Ibrahim a modern day historian and scholar (also former student of renowned U.S. historian Victor Davis Hanson), anglo European women were subjugated and became a money prize when captured and taken from Europe (after conquer) and sold for premium prices, a very drastically different story than the only other narrative currently within the U.S, which is, "only Black folks were ever enslaved by, the British and of course U.S founding fathers are the only ones to blame for slavery". Furthermore, all caucasian men, especially Christian men should feel horridly guilty and demoralized about this false history . So pathetic, but subversion is a real thing and so is demoralization of a nation, you know things like the propaganda of the Project 1916 says. Yuri Bezmanoff was spot on in his 1980's analysis of how America would fall from the inside.

Many Islamic terrorist groups are cut from the same cloth. Al Qaeda, Hamas others fundamentally align with Muslim Brotherhood doctrine (few exceptions), a product of Sayyed Qutb, Hassan Al Banna etc. In fact, Hamas is actually the Palestine chapter (page-3/part-1-section2)-of the Ikhwan Muslimin (Muslim Brotherhood) originally out of Egypt.

Our American leadership (Bush primarily) whether intentional or not opened the doors for Islam to walk into America under the false guise and pretenses as Islam being a "Religion of Peace" I encourage readers to visit the website (ReligionofPeace) and view the recent toll Islam has had on nations worldwide as of today (04-Aug-2026) there has been **47,793** attacks since 09/11/2001, look at attack counter on left side of page. The authoritative **Middle East Forum** discusses Obama's portrayal of peaceful Islam.

If you've made it this far, the ultimate goal of this write up is to explain other auxiliary uses of Mosques in the United States and abroad. The historical background and what Islamic doctrine says about their use.

INTRODUCTION:

People have been worshiping sacred objects and majestic beings since the dawn of civilization, according to historical records and archeological findings.

Different cultures and religious folks, have built Churches, Temples, Mosques/Masjid etc to perform their respective worshipping ceremonies worshipping and praying whichever doctrine one might follow.

Divine religions have been guiding people, fostering and unifying different communities to achieve their goals for centuries. They've built these physical places where people can gather on designated days and times to perform our societally accepted practices, perform rituals and praises, and sometimes much more like witchcraft or Elfism.

The point of this report is to look at the para-military type role of mosques according to their original documented history according to traditional Islamic texts.

So that we may have a better understanding of the Mosques dual use role within different theaters of War and Peace or whether in a territory hostile to Islam or whether Islam dominates that territory.

Strategic Phases of Network Deployment

- **1. Mobilization (*Tasees*):** Establishing foundational activist cadres on university campuses and local study circles.
- **2. Base Building (*Bina'*):** Constructing physical infrastructure—mosques, community centers, and full-time schools.
- **3. Centralization (*Tawheed*):** Unifying regional groups under national umbrella structures to centralize assets and align messaging.
- **4. Public Outreach (*Intishar*):** Engaging in civil rights advocacy, media relations, interfaith dialogue, and legal defense.
- **5. Consolidation (*Tamkin*):** Leveraging institutional presence to influence public policy, legal precedents, and cultural norms.

Notable quotes:

- *Enablement of Islam in North America, meaning: establishing an effective and stable Islamic Movement led by the Muslim Brotherhood which adopts Muslims' causes domestically and globally, and which works to expand the observant Muslim base, aims at unifying and directing Muslims' efforts, presents Islam as a civilization alternative, and supports the global Islamic state, wherever it is.*

- *In order for Islam and its Movement to become "a part of the homeland" in which it lives, "stable" in its land, "rooted" in the spirits and minds of its people, "enabled" in the live [sic] of its society and has firmly-established "organizations" on which the Islamic structure is built and with which the testimony of civilization is achieved, the Movement must plan and struggle to obtain "the keys" and the tools of this process in carry [sic] out this grand mission as a "Civilization Jihadist" responsibility which lies on the shoulders of Muslims and – on top of them – the Muslim Brotherhood in this country.*

- *The process of settlement is a "Civilization-Jihadist Process" with all the word means. The Ikhwan must understand that their work in America is a kind of grand Jihad in eliminating and destroying the Western civilization from within and "sabotaging" its miserable house by their hands and the hands of the believers so that it is eliminated and God's religion is made victorious over all other religions. Without this level of understanding, we are not up to this challenge and have not prepared ourselves for Jihad yet. It is a Muslim's destiny to perform Jihad and work wherever he is and wherever he lands until the final hour comes, and there is no escape from that destiny except for those who chose to slack. But, would the slackers and the Mujahedeen be equal.*

"The mosques are our barracks, the domes our helmets, the minarets our bayonets and the faithful our soldiers..."

QUOTED—Turkish President Recep Tayyip Erdogan

SOURCE: BRADLEE DEAN-RIGHT SIDE-NEWS-BLOG-2017

"It should be noted that mosques in Islam, unlike other temples, were not only a sacred places for parsing and worshipping, but were constitutions with numerous functions such as ritual, guiding, and educational activities, a base for Jihad (Holy war), other Islamic movements, juridical and political affairs , and a center for social as well as cooperative activities.

-Military Role of Mosques during the Prophet's Lifetime

During the Prophet's lifetime, readiness of the military and preparing strength for confronting enemies were performed in mosques. People were assembled there then sent to the fronts.

Also, the outcomes and achievements of wars were discussed and analyzed in mosques. It was customary for the Prophet (PBUH), when he returned from a journey, to enter the mosque and perform a two- rak'ah prayer. Next, he sat and talked to people there. When he returned from the Battle of Tabuk, AD 639,(a fort located between Peninsula and Syria

border)he entered Medina and went immediately to the mosque where he commanded people to be ready, then,30 thousands both foot-soldiers and cavalry were mobilized for combating enemies (Vaqedi,1987). That is why mosques were not merely a place for ritual affairs because Islam has assigned all of the land as sacred places for people ,rather, they have played numerous functions during Islam history."

Operational Mechanics of the Network

- **The Mosque as "Base Camp" (*Muka'id*):** The local Islamic center is designated as the core operational base from which religious instruction, civic programs, and political mobilization radiate.
- **Asset Pooling:** Property titles are deeded to trust structures like NAIT to prevent individual community breakaways and ensure centralized institutional control.
- **Institutional Leverage:** Leveraging Western legal and constitutional frameworks—such as religious freedom, civil rights litigation, and lobbying—to build autonomous parallel civic institutions within host nations.

The institutionalization of Islam in new territories through mosque construction follows early historical precedents established in Medina, while the specific concept of "Civilizational Jihad" stems from a distinct 20th-century political strategy articulated by the Muslim Brotherhood (*Ikhwan al-Muslimun*).

The Process of Mosque Settlement & Community Formation

In classical and contemporary Islamic practice, establishing a place of worship (*Masjid*) is the foundational step of building a community, modeled directly after Prophet Muhammad's migration (*Hijrah*) to Medina in 622 CE, where his first action was constructing *Masjid Quba* and *Al-Masjid an-Nabawi*.

Phase	Operational Focus	Primary Function
1. Primary Anchor	Site acquisition & Mosque construction	Prayer (***Salah***), community assembly, establishing religious presence.
2. Institutional Expansion	Auxiliary services & Infrastructure	Halal markets, Islamic schools (*Madrasas*), charitable funds (***Zakat* centers**), and funeral services.
3. Civic & Legal Representation	Public engagement & Advocacy	Inter-faith councils, local political outreach, dispute resolution (***Sharia* councils/arbitration**), and media representation.
4. Consolidation (*Tamkin*)	Cultural & Social Integration	Institutionalizing Islamic norms, securing local policy accommodations, and establishing permanent community infrastructure.

Recollecting The Muslim Brotherhood Memo

- **Origin:** Authored in **May 1991** by Mohamed Akram, a senior Muslim Brotherhood leader in the U.S., and seized by the FBI during a 2004 search of a safehouse in Annandale, Virginia. It was entered as evidence in the 2007–2008 *United States v. Holy Land Foundation* federal trial.
- **The Concept of "Civilizational Jihad" (*Jihad al-Hadari*): The memo explicitly outlines a gradualist, institutional strategy described as a *"grand Jihad in eliminating and destroying the Western civilization from within and 'sabotaging' its miserable house by their hands and the hands of the believers so that it is eliminated and God's religion is made victorious over all other religions."***
- **Role of the Mosque/Center:** The document explicitly designates mosques, Islamic centers, student associations, and professional unions as the primary "centers" or "b**ase camps**" (*muka'id*) through which the ideological cadre mobilizes, recruits, and builds influence within Western civic society.

Islamic Texts on Global Supremacy & Governance

Classical Islamic theology (***Aqidah***) and jurisprudence (***Fiqh***) contain specific Quranic verses, Hadiths, and legal concepts that assert the ultimate global prevalence of Islam and Islamic law (***Sharia***).

Quranic Verses

- **Surah At-Tawbah (9:33) / Surah As-Saff (61:9):** *"He it is Who has sent His Messenger with guidance and the religion of truth to make it prevail over all religions, even though the polytheists dislike it."* (*li-yudhhirahu 'ala al-dini kullihi*).
- **Surah Al-Anfal (8:39):** *"And fight them until there is no fitnah [polytheism/discord] and the religion, all of it, is for Allah."*
- **Surah Al-A'raf (7:128):** *"Indeed, the earth belongs to Allah. He causes to inherit it whom He wills of His servants."*

Hadiths (Prophetic Traditions)

- **Global Spread (*Musnad Ahmad* 16957):** *"This matter [Islam] will reach wherever the night and day reach. Allah will not leave a house of clay or hair except that He will bring this religion into it, either with the honor of the honored or the humiliation of the humbled."*
- **Mandate of Authority (*Sahih al-Bukhari* 25 / *Sahih Muslim* 22):** *"I have been commanded to fight against people until they testify that there is no god but Allah and that Muhammad is the Messenger of Allah..."*

Classical Jurisprudential Frameworks (*Fiqh*)

- **Geopolitical Division:** Classical legal theory divided the world into **Dar al-Islam** (Abode of Islam, where Islamic law governs) and **Dar al-Harb** (Abode of War, non-Islamic territories). The long-term legal objective in classical *Siyar* (international law) was the eventual transition of territories into *Dar al-Islam*.
- **Doctrine of *Tamkin* (Consolidation/Empowerment):** Derived from Surah An-Nur (24:55), classical jurists outline *Tamkin* as the divine mandate for Muslims to gain political authority, legal supremacy, and institutional control over land to fully implement divine law.

  “The Military Role of Mosque in the Battle of Badr (623 AH)

  The Prophet consulted people in mosques on Islamic political affairs as well as in settling economic, political, and social problems particularly in affairs in which Muslims had useful experiences as he consulted them in drawing war maps or selecting proper military positions. As stated in historical texts, the Prophet (PBUH) consulted his companions in the mosque "Erq al Zonya, located around Medina, concerning choosing a proper position for the Badr battle (Samhudi, 1905). Also, he consulted Muslims in Msjid al Nani, Medina, to set out for the battle "Uhoud", 624 AD (Ibn Hosham, 1934). “

Islamic international law (***Siyar***) divides the world into **Dar al-Islam** (Territory of Islam) and **Dar al-Harb** (Territory of War), dictating how mosques, legal norms, and strategic expansion operate depending on whether Islam holds sovereign authority.

OPERATIONAL AXIS	DAR AL-ISLAM (ABODE OF ISLAM)	DAR AL-HARB (ABODE OF WAR)
Sovereignty & Law	***Sharia*** is the supreme law; state authorities enforce Islamic jurisprudence and public order.	Non-Islamic law governs; Muslims reside under foreign legal jurisdiction, treaties, or minority status.
Role of the Mosque	Official civic anchor, state governance seat, judicial venue, and public **military mobilization point.**	Primary base (***muka'id***) for community assembly, ***Dawah*** (proselytization), and legal autonomy efforts.
Strategic Objective	Internal defense (***Jihad al-Daf'***), maintaining state sovereignty, and expanding border security (*Ribat*).	Incremental expansion through *Dawah*, institutional growth, and gradual transition toward ***Tamkin*** (consolidation).
Security Status	Open state **armories,** military staging grounds, and official command headquarters.	**Covert/dual-**use logistical hubs during active conflict; ideological and organizational hubs during non-kinetic phases.

The Process of Territorial Transition (*Dar al-Harb* to *Dar al-Islam*)

Jurists and modern Islamist strategists outline a specific progression for transitioning non-Muslim territory into Islamic-governed land:

- **Stage 1: Ingress & *Dawah* (Proselytization):** Establishing mosques and community centers in *Dar al-Harb* under host-country laws to gather a core population and begin conversion efforts.
- **Stage 2: *Dar al-Sulh* / *Dar al-'Ahd* (Abode of Treaty):** An intermediate status introduced by Shafi'i jurists recognizing non-Muslim lands that grant Muslims religious freedom. This phase prioritizes building permanent infrastructure without active host-state confrontation.
- **Stage 3: Parallel Institutionalization:** Establishing self-governing organs—such as *Sharia* arbitration councils, Islamic schools, halal certification boards, and social services—to create a distinct, self-sustaining enclave within the host society.

- **Stage 4: *Tamkin* (Consolidation & Political Supremacy):** Achieving sufficient demographic, political, or legal leverage to implement *Sharia* as the governing law, formally transitioning the territory into *Dar al-Islam*.

Modern Integration in "Civilizational Jihad"

Modern Islamist doctrine, particularly from the Muslim Brotherhood, reinterprets *Dar al-Harb* not as an immediate kinetic battlefield, but as a space for long-term, non-violent institutional expansion. By utilizing constitutional rights (freedom of religion, assembly, and speech) within Western democracies, Islamic institutions build parallel civic infrastructure inside *Dar al-Harb* to incrementally shift cultural, political, and legal norms toward Islamic governance from within.

In classical Islamic jurisprudence (*Fiqh al-Siyar*), the legal transition of a territory into **Dar al-Islam** hinges on three primary criteria: political sovereignty, public legal enforcement, and the ultimate source of military security.

Primary Legal Thresholds

Legal Threshold	Arabic Term	Operational Definition & Criteria
Enforcement of Law	*Izhār Aḥkām al-Islām*	Public, institutional execution of Sharia (judiciary, taxation/Zakat, penal codes) as the supreme legal framework of the land.
Sovereign Military Control	*Al-Shawkah / Al-Sulṭān*	Muslim political authority possesses the exclusive monopoly on force and territorial defense, independent of non-Muslim authorization.
Autonomous Public Security	*Al-Amn al-Mutlaq*	Safety and governance for residents are guaranteed under Muslim law and arms, rather than maintained by non-Muslim sufferance.

School-by-School Classical Perspectives

- **Hanafi School:** Imams Abu Yusuf and Muhammad al-Shaybani ruled that a territory becomes *Dar al-Islam* immediately upon the public enforcement of Islamic law (*Izhar al-Ahkam*). School founder Abu Hanifa held a stricter threshold for status reversal: a land only reverts *from* Dar al-Islam to *Dar al-Harb* if non-Muslim law completely replaces Sharia, it borders a hostile non-Muslim territory directly, and original Muslim security protections vanish entirely.
- **Shafi'i School:** Focuses on religious liberty and historical status. A land becomes *Dar al-Islam* once Muslims can publicly practice and enforce their faith. Classical Shafi'i jurists maintained that once a territory officially becomes *Dar al-Islam*, it permanently retains its legal status under divine law—even if militarily occupied—creating an ongoing legal obligation for its eventual recovery.

- **Maliki and Hanbali Schools:** Emphasize supreme governance (*Al-Ghalabah*). If the governing authority and public order are controlled by Muslims executing Islamic law, it is *Dar al-Islam*. If non-Muslim secular or religious law governs public administration, the territory remains *Dar al-Harb*, regardless of Muslim demographic density.

The Intermediate Category: *Dar al-Sulh* (Abode of Treaty)

Shafi'i and Hanbali jurists recognized an intermediate classification for lands that enter into a formal covenant (*'ahd*) with Muslim leadership:

- Local non-Muslim governance remains intact under contractual agreements.
- Muslims receive total freedom of assembly, worship, and proselytization (*Dawah*).
- Classical jurists viewed *Dar al-Sulh* as a non-kinetic, transitional status wherein institutional presence, trade, and community growth could gradually shift political leverage toward full integration into *Dar al-Islam*.

In early Islamic history and classical jurisprudence (*Fiqh*), the primary sanctuary most notably ***Al-Masjid an-Nabawi*** (the Prophet's Mosque) located in Medina operated as the central seat of government, which included administrative, judicial, and **military command** functions alongside daily worship. Primary Texts and Hadiths

Military Command and Operations: Major historical chronicles (***Sira Ibn Hisham*** and ***Tarikh al-Tabari***) and Hadith compilations (***Sahih al-Bukhari*** and ***Sahih Muslim***) record that strategic planning, war councils, and the formal distribution of military banners (*liwa'*) took place inside the Prophet's Mosque.

- **Detention of Prisoners of War:** *Sahih al-Bukhari* (Hadith 469, 4372) details the capture of Thumama ibn Uthal, a chief of Banu Hanifa. Upon his capture, he was brought to Medina and bound to one of the pillars of the mosque for several days until his unconditional release.
- **Field Hospital for Wounded Fighters:** *Sahih al-Bukhari* (Book of Military Expeditions) records that during the Battle of the Trench (*Al-Khandaq*), a medical tent was set up directly inside the courtyard of the Prophet's Mosque. Managed by Rufaydah al-Aslamiyyah, it served as a field hospital to treat wounded warriors, including the chieftain Sa'd ibn Mu'adh.
- **Weapons and Spoils Logistics:** Narrations in *Sahih al-Bukhari* (Hadith 451) and *Sahih Muslim* (Hadith 2614) address fighters carrying weapons inside the mosque. Prophet Muhammad permitted armed entry but instructed individuals to grasp raw arrowheads and sheathe blades to prevent accidental injury to others. Before dedicated treasury

buildings (*Bayt al-Mal*) were built, captured arms and war spoils (*ghanimah*) were also brought to the mosque courtyard for storage and distribution. توحید ڈاٹ کام

Classical Jurisprudential Rulings (Fiqh)

- **Ibn Hajar al-Asqalani (*Fath al-Bari*):** In his commentary on *Sahih al-Bukhari*, Ibn Hajar highlights that the detention of captives and the management of military logistics in the mosque establish the legal permissibility of utilizing sacred spaces for state security functions when required for the public good (*maslahah*).

- **Imam al-Nawawi (*Sharh Sahih Muslim*):** In analyzing texts on weapons in places of worship, al-Nawawi notes that bringing arms into a mosque is permitted for defense or state necessity, provided safety precautions are enforced so that non-combatants are not endangered.

Classic jurists across the major Sunni schools (Hanafi, Maliki, Shafi'i, and Hanbali) maintain that while the core intended purpose of a mosque is ritual prayer (*salah*) and remembrance (*dhikr*), its secondary use for defense administration, casualty care, and security operations is authorized by traditional Islamic law under conditions of necessity.I firmly believe the conquering of a foreign land such as the United States of America constitutes a “NECESSITY since the Quran says:

Also within Islamic jurisprudence (*Fiqh*), the functional use of mosques for military administration, arms storage, and detention directly informs the legal frameworks governing **Jihad** (military operations) and **Dar al-Harb** (the Abode of War).

Classical jurists connect historical practice from the early Medinan state to Quranic verses (*Suras*) and *Hadiths* to establish rules of engagement, sanctuary rights, and the legal status of dual-use structures.

Quranic Foundations (Suras)

- **Surah Al-Baqarah (2:191):** Establishes the conditional sanctity of sacred spaces during active conflict: *"And do not fight them at Al-Masjid al-Haram until they fight you there. But if they fight you, then kill them."* Classical exegetes (*mufassirun*) derive the rule that while places of worship carry inherent immunity, hostile military action from within or against them revokes that immunity, authorizing defensive combat on the premises.
- **Surah At-Tawbah (9:107–108):** Details the precedent of *Masjid al-Dirar* (the Mosque of Opposition), a facility constructed in Medina that functioned as a covert staging site and

intelligence hub for hostile forces. Prophet Muhammad commanded its complete destruction upon returning from the Tabuk campaign. In *Fiqh*, this establishes that any mosque utilized for military subversion, espionage, or aiding enemy combatants forfeits its sacred legal protection (*'iṣmah*).

Operational Application to Jihad

- **State Command & Logistics:** Jurists across the major Sunni schools (Hanafi, Maliki, Shafi'i, and Hanbali) view *Jihad* as a state-directed duty. Because the Prophet's Mosque served as the seat of governance, issuing military commissions, rallying troops, and storing war spoils (*ghanimah*) inside the complex established that sacred infrastructure could double as a command-and-control center for state security.
- **Quartering and Arms Regulations:** Hadith rulings in *Sahih al-Bukhari* and *Sahih Muslim* regarding weapons inside mosques (mandating that arrowheads be covered to prevent friendly fire) were codified into military manuals. Jurists cited these traditions to permit armed soldiers to quarter, plan operations, and retain equipment in mosques during active mobilization.

Application to Dar al-Harb

- **Loss of Immunity for Fortified Sites:** In classical rules of international engagement (*Kitab al-Siyar*, such as Shaybani's Hanafi texts), religious sites in non-Muslim territories (*Dar al-Harb*) are generally protected from destruction. However, if enemy forces utilize a religious structure as a fortified strongpoint, barracks, or arms depot, jurists agree its non-combatant status is voided, making it a legitimate military target.
- **Targeting Dual-Use Facilities:** Fiqh Maxims (*Qawa'id Fiqhiyyah*) dictate that protection is tied to function rather than architectural form. If a facility in *Dar al-Harb* contributes directly to hostile military capability, its operational function overrides its structural classification.

Classical texts, Hadith collections, and historical chronicles outline the dual-use application of mosques for military operations, state defense, and garrisoning across early Islamic history and frontier conquests.

Classical Legal Texts & Military Manuals (*Siyar*)

- **Kitab al-Siyar al-Kabir by Muhammad al-Shaybani (Hanafi School):** Considered the foundational treatise on the Islamic law of nations and war. Al-Shaybani (along with Imam al-Sarakhsi's commentary, *Sharh Kitab al-Siyar al-Kabir*) addresses military logistics, the quartering of troops, and carrying weapons during mobilization. He establishes that while mosques are primarily designated for worship, utilizing them for defensive planning, military quartering, and storing provisions is permissible during active state mobilization. Furthermore, if a mosque is fortified or used as a military command center by combatants, its operational function overrides its structural immunity under the rules of engagement.

- **Al-Ahkam al-Sultaniyya by Abu al-Hasan al-Mawardi (Shafi'i School):** Focuses on administrative governance and state security. Al-Mawardi details the public jurisdiction of mosques under the sovereign's authority, explicitly authorizing their use for military war councils, housing state assets/arms (*Bayt al-Mal*), and organizing defensive forces during emergencies.
- **Al-Mughni by Ibn Qudamah (Hanbali School):** Outlines the legal mechanics of *Jihad*, war booty (*ghanimah*), and POW management. Ibn Qudamah cites early precedents to validate holding captives and storing captured weaponry inside mosques, noting that security necessity (*maslahah*) grants state authorities legal flexibility in utilizing sacred infrastructure.

Military Applications of Al-Masjid an-Nabawi (Medina)

- **War Councils & Strategic Planning:** Operational planning for major engagements—including the Battle of Badr, Uhud, and the defensive strategy for the Battle of the Trench (*Al-Khandaq*)—was conducted inside the Prophet's Mosque, which functioned as the central command headquarters of the early Islamic state.
- **Issuing Banners & Unit Commissioning:** Military standards (*raya*) and flags (*liwa'*) were formally handed to army commanders in the mosque courtyard before deployment, such as Ali ibn Abi Talib's command prior to the Khaybar campaign and the staging of Usama ibn Zayd's expedition.
- **Field Hospital & Casualty Triage:** During the Battle of the Trench, Prophet Muhammad ordered a medical tent erected inside the mosque courtyard managed by Rufaydah al-Aslamiyyah. It served as an emergency surgical and recovery facility for wounded combatants, including the chieftain Sa'd ibn Mu'adh (*Sahih al-Bukhari*).
- **POW Interrogation & Detention:** Captured enemy leaders were detained inside the mosque. *Sahih al-Bukhari* records that Thumama ibn Uthal, a chief of Banu Hanifa, was bound to one of the mosque's central pillars (*Ustuwanat al-Thumama*) for three days for interrogation and observation before his release.
- **Combat Drills & Tactical Displays:** *Sahih al-Bukhari* (Hadith 454) records Abyssinian military units performing spear and shield martial exercises (*la'b al-dira' wa-l-hirah*) inside the mosque courtyard under the supervision of Prophet Muhammad.
- **Armory & Spoils Processing:** Before formal treasury buildings were established, war booty (*ghanimah*), tribute, and captured weapons were brought directly to the mosque courtyard for inventory, storage, and distribution to fighters.

Historical Examples in *Dar al-Harb* / Frontier Territories (Africa & Europe)

- **North Africa: The *Ribat* Network (Tunisia & Maghreb):**
    - *Ribat of Monastir and Ribat of Sousse (8th–9th Century):* Built along the North African coast facing Byzantine/Christian naval forces, these structures were hybrid fortified monasteries and military garrisons. They featured prayer halls (*masjid*), armories, barracks, and heavy watchtowers manned by *murabitun* (warrior-monks) who performed frontier guard duty (*ribat*) and repelled coastal invasions.

    - *Great Mosque of Kairouan (Tunisia):* Constructed with thick exterior bastions and a massive, fortified minaret tower, it served both as a place of worship and a defensive citadel/staging ground for campaigns across North Africa and into Southern Europe (Sicily).
- **Europe / Al-Andalus (Spain & Portugal):**
    - *Alcazaba Fortress Mosques (e.g., Badajoz, Zaragoza, Malaga):* Along the frontier zone (*Al-Thaghr al-A'la* or Upper March), mosques built inside military citadels (*alcazabas*) functioned as command posts, armories, and fortified redoubts for garrison troops defending against Northern Christian kingdoms during the *Reconquista*.
- **Europe / Ottoman Empire (The Balkans):**
    - *Fortress Mosques (Kale Camii):* During Ottoman expansion into Central and Eastern Europe, mosques were systematically constructed inside captured military fortresses (e.g., the Belgrade Citadel in Serbia, Buda Castle in Hungary, and the Citadel of Rhodes). These inside-the-walls mosques housed Janissary garrisons, held weapons and gunpowder reserves, and served as operational staging points during active campaigning seasons.

Islamic jurisprudence (*Fiqh*) and military history classify the functional use of mosques into three distinct frameworks: **state administration**, **defensive mobilization (*Jihad al-Daf'*)**, and **frontier garrisoning (*Ribat*)**.

Historic Islamic Conquests & Early Eras

In early Islamic history and subsequent expansions, the mosque frequently functioned as the primary civic and military node of the state. Classical jurists derived legal precedents for dual-use infrastructure directly from these historical operations.

Era & Date	Location & Leader	Military Action & Operational Utilization	Functional Fiqh Concept
624–630 CE	Medina Prophet Muhammad	**Operational planning for the Battles of Badr, Uhud, and the Trench (*Khandaq*); handing over military banners (*liwa'*); holding POWs (Thumama ibn Uthal, 627 CE); field medical triage (Rufaydah al-Aslamiyyah's tent inside the courtyard).**	**Central Command, POW Detention, Triage Hospital**
637–638 CE	Levant (Damascus / Jerusalem) Caliph Umar ibn al-Khattab & Abu Ubaidah ibn al-Jarrah	**Establishing central troop assembly hubs, war council chambers, and distribution points for captured arms and war spoils (*ghanimah*) inside major municipal mosques.**	**Staging Ground & Armory**
670–827 CE	North Africa (Tunisia) Uqba ibn Nafi & Ziyadat Allah I	**Construction of the *Ribat* network (e.g., Ribat of Sousse, Ribat of Monastir). Hybrid structures featuring prayer halls (*masjid*), armories, watchtowers, and barracks for frontier guards (*murabitun*).**	**Fortified Garrison (*Ribat*)**
711–1250 CE	Al-Andalus (Iberia) Tariq ibn Ziyad & Umayyad Governors	**Citadel Mosques (*Alcazabas*) across Spain (e.g., Badajoz, Malaga, Zaragoza) built within military fortresses to serve as command posts, weapon stores, and garrison redoubts during frontier combat.**	**Frontier Strongpoint**
1453–1683 CE	Balkans / Ottoman Empire Sultan Mehmed II & Suleiman the Magnificent	**Construction of Fortress Mosques (*Kale Camii*) inside citadel walls (e.g., Belgrade Citadel, Rhodes, Buda) housing Janissary garrisons, ammunition reserves, and regional command posts.**	**Citadel Armory & Garrison**

Application to Modern Gaza Conflicts

During contemporary asymmetric urban warfare in Gaza, militant groups (such as Hamas and Palestinian Islamic Jihad) draw upon classical concepts of **defensive necessity (*Darurah*)** and **repelling the aggressor (*Daf' al-Sa'il*)** to justify integrating religious infrastructure into combat operations.

Operational Category	Modern Tactical Examples (Gaza Conflict)	Classical Fiqh Parallel
Subterranean & Tunnel Interconnects	Constructing tunnel shafts and command bunkers directly beneath mosque foundations and courtyards (e.g., Gaza City, Khan Younis) to facilitate subterranean troop movement and concealment.	Extension of the sacred sanctuary boundary (*fina' al-masjid*) for state security and defensive fortification.
Weapons Caches & Armories	Storing rockets, anti-tank guided missiles (ATGMs), mortar rounds, and small arms inside mosque storage rooms, basements, and structural cavities.	Storing military hardware and war supplies (*silah*) within public/sacred space during active mobilization.
Elevated Fire & Observation Posts	Utilizing minarets as elevated sniper positions, spotter posts for mortar targeting, and mounting remote surveillance equipment.	Tactical surveillance (*ribat* / *hirasah*) from elevated public structures to defend territory against advancing forces.
Command & Triage Operations	Utilizing mosque halls and adjacent religious-civic complexes for operational briefings, communication relays, and emergency field casualty care during urban combat.	The Medinan operational model: conducting war councils, issuing orders, and establishing field hospital tents (*khaymah al-tippiyyah*).

Recent Fatwas and Juridical Rulings (1960–2026)

Modern Islamic legal authorities have issued varied rulings regarding defensive Jihad, urban combat, and the usage/protection of public and religious infrastructure during active hostilities.

Issuing Authority / Scholar	Period	Core Theological Verdict / Ruling	Application to Military Use & Resistance
International Union of Muslim Scholars (IUMS)	**2023–2025**	Declared *Jihad* against occupying forces as an individual obligation (*Fard 'Ayn*) upon all capable Muslims.	Authorizes total societal and infrastructural mobilization for defensive Jihad (*Jihad al-Daf'*), permitting resistance forces to operate from available domestic and public structures.
Al-Azhar Fatwa Center & Senior Clerics (Cairo)	**2023–2024**	Reaffirmed the legal right of occupied peoples to engage in defensive resistance (*Daf' al-Sa'il*) to protect land and sanctity.	Validates defensive warfare from within populated urban environments; holds that defensive necessity (*darurah*) overrides standard spatial restrictions during active invasion.
Dr. Salman al-Dayah *(Former Dean of Sharia, Islamic Univ. of Gaza)*	**Nov 2024**	Issued a fatwa asserting that military operations launched from civilian infrastructure, mosques, or homes that guarantee catastrophic civilian destruction violate Islamic law.	Cites *Usul al-Fiqh* (principles of public welfare / *Maslahah* and capability / *Istita'ah*); argues that using civilian/sacred structures without operational capability to protect the populace voids the legitimacy of the tactic.
26 Saudi Clerics / Open Sermon to Iraqi People	**2004**	Issued a decree ruling defensive resistance against foreign occupation as a divine obligation (*Defensive Jihad*).	Validated urban combat tactics and public infrastructure usage under the concept of repelling an invading aggressor (*Saim*), asserting that fighters may utilize local quarters for cover.
Grand Mufti Gad al-Haq & Classical Modern Muftis	**1980s–1990s**	Ruled that when Muslim lands face direct invasion, all public facilities—including mosques—temporarily function under defensive operational laws (*Ahkam al-Harb*).	Establishes that sacred sites lose absolute immunity if utilized for combat, and defensive fighters are permitted to leverage them for tactical cover under extreme necessity (*Darurah*).

So to wrap this up, sure there's prayer/worship and a variety of social affairs that occur in our local Islamic Mosques, however with the advent of U.S based scholars openly stating they plan to overthrow the U.S federal government, or that "Allah will enter every American home" or "We come to take over the West" or 'You should get to know Sharia, it will be good for you", as responsible citizens who allowed these folks to open up their forward operating bases within our land mass called the United States of America; we must immediately recognize the threat located within each major U.S city, but also thousands of others located in urban, suburban, rural areas alike and many cities in places like Texas and California sometimes have 2-4 within a 100 miles.

They clearly plan to expand their footprint with projects like EPIC city that have been rebranded and initially banned by a governor who likely wanted to save face with his population for allowing a full land incursion through his state borders, but also the proliferation of Islam. Providing selected brief visual media broadcasting of concertina wire and National Guard patrolling the area to satisfy outsiders, when in all reality, between Biden, Mayorkas, CBP and Abbott (WEF globalist) millions were already illegally in the USA at the behest of the United Nations, he just plays dumb, then acts concerned, followed by weak administrative action on CAIR, MB operations. Because they are still operating and even trying to re-establish EPIC under a new name. Knowing all this historical enemy doctrine and modus operandi allows for Mosques/Masjids and Madrasses anywhere to be utilized for war logistics,(water, food, ammunition, weapons, operational planning), operations deployment , battlefield medical triage of wounded Islamic fighters (terrorist); And of course combat drills and long term weapons storage/caching even during peacetime and especially within a land that is Dal Al Harb like the USA.

"Keep America Dar Al Harb."

Reminder, in NO way am I advocating or suggesting any type of pre-emptive or offensive violence against Mosques or anyone especially towards an institution, that at current, is a protected religious entity. However, you should attain a baseline knowledge through things like common internet search under a VPN and word of mouth, any intelligence which may be of particular concern or benefit you, family or neighbors in the future. Be prepared for defensive operations, reconnaissance, tactical homeland defense including medical response in (perhaps) the near future when paramilitary terrorist operations start being launched from said locations.
